Administrative Fee	\$295.00 flat per date of service
Subcontractors and Outside Services	Cost Plus 30%

**Mobilization\*** refers to the complex process of preparing, organizing, and transporting necessary equipment, tools, machinery, materials, and crew to a jobsite, and within the site itself, as per project needs. It involves planning the sequence of operations, managing logistics, and ensuring that the necessary resources are available at the right place at the right time. Mobilization includes loading, securing, and unloading of equipment, machinery, and materials. Mobilization also includes set-up and dismantling of equipment and materials, as well as bringing together and preparing crew members for the specific and unique challenges of each job site.

**Please note:** All equipment incurs a four-hour minimum in all emergency response, recovery, and clean up situations. Personnel and labor hours are incurred in addition to and billed separately from equipment hours. Personnel and labor hours also incur a four-hour minimum in all emergency response, recovery, and clean up situations. Equipment, personnel, and labor are billed hourly from the time the equipment leaves port until the time equipment returns to port and is re-stocked and returned to service ready condition. In addition to hourly charges, equipment also incurs a round-trip mileage fee.

**HAZWOPER** is an acronym that stands for Hazardous Waste Operations and Emergency Response. According to OSHA standard 29 CFR Part 1910.120, HAZWOPER training is required for any workers who perform cleanup, emergency response, or corrective actions that involve the uncontrolled release of hazardous substances.

**Environmental Compliance Fee:** covers the costs related to the ongoing and increasingly complex environmental and regulatory compliance requirements

, as well as maintaining an environmental pollution insurance policy.

including detailed photographic documentation, record keeping, hiring subcontractors, managing disposal including obtaining and filing hazardous waste manifests, and conferences with authorities, customers, and insurance adjusters. This fee also covers the itemization of equipment, personnel, materials, towing, disposal, storage, subcontractors, and administration.
